Please Note:

It is essential to have a Primary Contact so that the the care is coordinated and assumptions are minimized. The Primary Contact is not the only person who can stay connected and at the same time commits to walk with the grieving for at least a year.

The frequency of connection with the missionary will vary, however intentionality and frequency can not be dismissed. If these are lacking the missionary may feel forgotten or not cared for.

There is a grief video for the holiday season.

The Holiday video should be sent before Thanksgiving and Christmas to help prepare the missionary as they enter this previously festive season.
