

# Member Care Confidentiality

Normal limits of confidentiality will be maintained by Member Care providers, leaders, coordinators, and the Member Care director. “Normal” is defined as complete confidentiality with exceptions related to threats of harm to self or others and reports of abuse of a minor, elderly, or disabled person.

In matters of morality, member care providers will be strongly coached to encourage those with whom they are working to take appropriate steps with leaders when needed.

## Leader Confidentiality

Regional and Area Directors value and practice confidentiality regarding sensitive conversations with personnel; however, they are not required or expected to observe complete confidentiality regarding issues related to credentialing matters (see A/G Constitution and Bylaws, p. 68, section 3).

RDs and ADs have a responsibility to protect the integrity of the organization as well as lead and care for workers.
